Professional Summary

Dedicated and detail-oriented **Python Django Developer** with 3+ years of experience building scalable web applications, RESTful APIs, and backend systems. Strong problem-solving skills, clean coding practices, and a passion for creating efficient and secure server-side logic. Skilled in collaborating with cross-functional teams in agile environments.

Skills

Programming & Frameworks

- Python, Django, Django REST Framework
- HTML5, CSS3, JavaScript
- React.js (basic), jQuery

Databases

- PostgreSQL, MySQL, SQLite
- Redis (basic caching)

Tools & DevOps

- Git, GitHub, GitLab
- Docker, Docker Compose
- Nginx, Gunicorn
- Postman, Swagger

Other Skills

- REST API design
- Authentication/Authorization (JWT, OAuth)
- Unit testing (pytest, unittest)

- Agile/Scrum workflow
-

Professional Experience

Python Django Developer

Emerald Tech Solutions – Kathmandu, Nepal

March 2022 – Present

Responsibilities:

- Developed and maintained back-end logic for high-traffic applications using Django & DRF.
- Built secure REST APIs used by web and mobile clients.
- Designed database schemas and optimized queries for performance.
- Integrated third-party APIs (payment, SMS, cloud storage).
- Implemented user authentication, role-based access control, and admin dashboards.
- Managed deployments using Docker, Nginx, and CI/CD pipelines.
- Collaborated with frontend developers and UI/UX teams.

Key Achievements:

- Reduced API response time by 35% with optimized DB queries.
- Successfully migrated legacy codebase to Django 4.x.
- Built a reusable multi-tenant architecture for SaaS products.
